Subject:- CHANGE OF TARIFF

To evolve a uniform policy for allowing change of tariff where mode of use of electricity has been changed, following guidelines are laid down for strict compliance :-

- i- Change of tariff will be allowed by the authority who originally sanctioned the connection.
- ii- Security will be updated as per prevalent rates.
- iii- Any benefit, subsidy availed of in Capital Cost/Service Connection Cost at the time of getting existing connection will be recovered.
- iv- Cost of the material required to effect change of tariff will also be paid by the consumer.
- v- Competent authority will obtain site verification report from SDC concerned before allowing change of tariff.
- vi- If for the changed tariff, higher tariff is applicable and consumer has already changed the mode of use of electricity, assessment bill for unauthorized use of electricity for tariff other than sanctioned will also be recovered.
- vii- Change of tariff will be permissible only to a running connection.
- viii- The change of tariff should be technically feasible.
- ix- The meter, transformer of appropriate capacity will also be installed, if required for effecting change of tariff.
- x- New Agreement will be signed by both parties i.e. Company(WAPDA)/Consumer.
